FIRES OF REVOLT SMOULDERS AS IRON HEEL CRUSHES HOPES OF STRIKERS

(By United Press)

By Ed. L. Keen

London, Feb. 5—German militarism is still supreme in the Central Powers. Its iron heel has crushed down practically the last vestige of resistance by the enslaved starving common people through its threat of the supreme penalty and because the strikers also feared for the fate of the women and children. The strikers have practically all returned to work. Only one isolated case was reported today. That was at Jena where the Tageblatt said one-third of the employees walked out Saturday.

There is a disposition among officials and students of economics here to regard the waning of the general strike as only a temporary surcease in the industrial and political problem. The work of the extraordinary court martial in its extreme penalty has added fuel for further trouble.

Will[illegible] Dittman, Socialist member of [illegible]ichstag was sentenced to five [illegible], imprisonment for "inciting high treason" and was given an additional six months for resisting government officials. Imperial Chancellor Hertling previously refused to interfere in the Dittman case because he could not invoke civil procedure as long as the military authorities were in charge. Henrich Schultz, another popular leader as given six months for distributing strike literature.

Dispatches from Jan Bruna, United [illegible] correspondent at The Hague, and official dispatches from Washington support the above story from Ed. L. Keen. Bruna declared that 10 per cent. of all war workers in Germany went out on strike Friday. The work of the government in giving Dittman, Independent Socialist five years will only serve to prove disastrous to the Kaiser in the future. The strike in Germany was "spontaneous" Bruna declared. Majority Socialists drawn in by Phillip Schiedemann their leader and the Minority Socialists by Hasse and Dittman gave much strength to the Socialistic element. One of the effects of the strike will be to widen the breach between the comon people and the "middle class." Prominent Germans do not hesitate to declare that the Socialists are far apart from the government liberals and the Central Party members. The stamping out of the general strike by the iron heel of the imperial government will leave a mark upon the masses which will fester and burn.

Amsterdam, Feb. 5—Semi-official dispatches received here from Germany today confirmed reports from various sources that the Junkerites had achieved another victory in the Central Powers by suppressing the general strike. 75,000 to 70,000 employes of the Borsig factory at Teger and other big plants returned to work today the dispaches said. It was declared that "futher abatement" of the strike was expected today.

GERMAN WRITER IS BLAMING TIRPITZ

Amsterdam, Feb. 5—Von Tirpitz's theory of a speedy overthrow of England by the submarine warfare "have fallen down in the light of developments in the last twelve months," Vice Admiral Von Galste declared in an article published in a German magazine received here today.

"There is no doubt but that those who urged immediate submarine warfare in 1915 and 1916 were deceived regarding the time it would take to build the U-boats, and the capital it would take," Van Galster declared.

U. S. AND CANADA AGREE ON LABOR

Petrograd, Feb. 5.—Both the government employment service bureaus of the United Stats and Canada have entered into an agreement whereby neither country can import labor from the other country without the consent of the country, th Labor Department announced today.

14,000 INNOCENTS KILLED

London, Feb. 5.—Enemy submarines and air raids have killed 14,120 British non-combatants, men, women and children, Chancellor of the Exchequer Bonar Law declared in the House of Commons today.

RUBIN & RUBIN HERE THURSDAY

Rubin and Rubin, Harrisburg's leading eye specialists will again be at their office at Woodward & McPhersons drug store, Clearfield, Thursday, Friday and Saturday, Feb. 7, 8, 9, for three days. Eyes examined free. Open evenings. Kindly remember if you break your glasses they can be brought to our office at the drug store.

SPORTSMEN, ATTENTION

Dont fail to attend the meeting in the Arbitration Room tonight at 8 o'clock for the purpose of hearing reports as to condition of wild game in the woods and to devise ways and means of having the State Game Comission put out the necessary feed for starving deer, birds and rabbits.

ATTENTION CURWENSVILLE

Merris and Pentz will relate their experiences on the battle front in the Presbyterian church at Curwensville Thursday evening instead of Friday evening as perviously stated.

Clarence Butler and Blair Ogden, two local boys at Camp Lee, will arrive home on a five day furlough this evening and we expect them to tell us just how they are going about it to land the Kaiser when they get "over there."

The Western Golf association has bought $3,000 worth of Liberty bonds and donated several thousand dollars to the Red Cross.

Orvie Overall, one-time star pitcher of the Cubs and now a rancher near Visalia, Cal, is a candidate for sheriff of his county.

New Orleans promoters will most likely accept Jack Britton's terms for a go with Johnny Dundee. Jack's figures are $1,500 won, loose or draw.

Jim Duncan, holder of the world's discus record, is a first sergeant of the 11th Engineers now on duty in France.

Handball seems to be the favorite spoirt in San Francisco this winter. At a recent tournament in that city nearly 100 players took part.

SENATOR WADSWORTH SEES HARDEST KIND OF WAR PREPARATIONS AHEAD

(By United Press)

Washington, Feb. 5—"Lack of vision" is stalling American war strength, Senator Wadsworth declared in Senate today. "We have suffered and will continue to suffer unless a direct agency is created. I entertain the belief that the end of this war is not in sight and we shall travel a long hard road before we reach the goal. I feel certain the struggle is growing more and more serious as months go by. Americas' effort must continue to expand. We must send more and more troops abroad. Build more and more ships. Produce more and more food to feed ourselves and our allies and we must increase our mines' production and improve our transportation and manufacturing facilities. In short I am convinced that we are only on the threshold of this stupendous undertaking."

Firing the second volley into the war administration Wadsworth continued "through blindness the war found this country pathetic in its unpreparedness." Since then he added, "this great American giant has been stumbling and groping."

TWENTY-FOUR GET BY ARMY TEST EXAMS HELD YESTERDAY

The first examination of national army registrants for District No. 1 since the men were classified under the new questionnaire plan was held at the headquarters of the Exemption board in the Murray building yesterday afternoon.

During the four or five hours the corps of physicians were at work a total of sixty-five men went through the examining ordeal. A large majority of these had been rejected at the first examination and as a result, even though the requirements now are not near as stringent as they were then, but twenty-four men were selected and will be certified for service.

Under the new regulations all those rejected by the local board are considered but conditional rejections, and each and everyone will be required to proceed to DuBois where they will undergo a further physical going over at the hands of a board of medical examiners appointed to do such work for the three boards in Clearfield county. These examinations will be made at the DuBois hospital.

The Exemption Board is required to furnish each registrant rejected with an order and transportation to DuBois for this final examination.

The men selected by the local Exemption Boards will all be certified for first line military service, while the purpose of the second examination is to select the men whose defects can be remedied or who can be made available for other military duties or work behind the lines or where needed by the war department.

This final examining board will have each registrants questionnaire and card containing his industrial capability and will work their examination with a view to determining whether the applicants physical condition is such as to warrant the government in taking him for work along the line at wrich he is the most proficient.

The examinations are being continued today and will be carried on from time to time as it suits the convenence of the Exemption Board until the entire eleven hundred men in Class 1A are all examined and properly listed for service. The names of those accepted for military service ollowing yesterdays examination are as follows:

Charley Gardner, Woodland.
John I. Harry, Clearfield.
Daniel A. Bailey, Clearfield.
Millard Wilson, Clearfield.
Clyde Ambrose Curry, Clearfield.
Thomas Aaron Leigey, Hyde City
Leslie James Gilliland, Curwensville.
Abe Harris, Clearfield.
Cannelo Gilormo, Clearfield.
Blase Placedo Plano, Hawk Run.
John Andrew Sotok, Morrisdale.
Edward James Redding, Clearfield.
Hillary Amy Beigley, Frenchville.
Guiseppe Lavini, Curwensville.
John Shaw, Hawk Run
George Leonard Phillips, Houtzdale.
Fred Wilson Lippart, Clearfield.
John Edward Swanson, Peale.
Wilbur Turner, Munson
John A. Black, O'Shanter.
John David Stevens, Hawk Run.
Dent S. Holden, Clearfield.
Amy A. Royer, Coudley.

These men will be sent to Camp Lee on February 12th next.

The war department has issued a call for the remainder of the men from this district due at Camp Lee to complete the quota of the first call. Previous to the issuing of the questionnaires this district had sixty-three men on the list to complete their total of 211 men under the first call and this latest call or order means that in addition to the twenty-one men to be sent away February 12th, the remaining forty-two will have to be secured from today's and subsequent examinations and be got ready to go to Camp Lee on February 23d.

It is quite likely that another call for men will be issued early in March, because it is generally understood that by that time at least 50 per cent. of the men in Camp Lee will have been sent elsewhere and the work of securing the second five hundred thousand army for training will have been begun.

RIDGWAY MAN IN LIST OF CANADIAN KILLED

Ottawa, Feb. 5—J. A. Murphy, of Ridgway, Pa., an American was reported killed in the Canadian casualty list issued here today.

He was reported to have met death through German sources.

The Editor Talks To His Readers

We like to think of our twenty-three hundred subscribers as a huge famiy to whom we can go each evening with the news of the day, the doings of our neighbors, the funny little things that happen as we wander along the path of life in a grim old real world, comment on the events of the times; past, present and future and finally leave them all the better for having been visited by our little paper, The Progress, of which we are, we believe, justly proud.

Our Part Comes First

A newspaper cannot altogether make itself. Its publishers must, of course, take the initiative and satisfy the appetite for the news of the evening hour but the financial support must come from the readers and from the merchants who patronize its advertising columns. There is a greater degree of dependence, one upon the other, between the reader, the advertiser and the published than at first thought appears.

Reader the Best Judge

The reader is the best judge of the value of a newspaper and if a newspaper passes his scrutiny, gets his O. K. and his yearly subscription, that we believe is the newspaper that the advertiser wants. The revenue the publisher gets from the advertising enables the publisher to hire help to gather news from the four corners of the earth and in this way the advertiser is directly benefiting the reader. In turn the reader more eagerly looks through his paper knowing that if anything happened that day he will find it in his paper. The publisher must treat the reader to the best that he can do and if he fulfills his duty to his subscriber his duty to the advertiser is done.

County Wide Circulation

Because of the two contests held by The Progress two and four years ago respectively, the circulation was county wide and the present management considered it inflated and not substantial and took great care at the expiration of those contest subscriptions to see that all were stopped as they expired. On the other hand efforts to gain in our own immediate territory, that is from Mahaffey to Peale on the New York Central and from Grampian to Osceola on the Pennsy, were made by giving all the news we could and paying particular attention to delivery of papers. Our aim was to concentrate what appeared to us to be Clearfields news territory.

Our Gain in Clearfield

Last August 15th the contest subscriptions had practically all expired and we were left with just 755 good paying patrons in the city of Clearfield (By paying patrons we mean just what the term implies. We have no dead men on our subscription lists and very few dead beats.) We point with justifiable pride to the fact that totay we deliver this issue to 1035 subscribers in this city by our carrier boys in addition to sending 160 out on the rural routes from the local postoffice. Of this entire amount of 1195 Clearfield subscribers only 11 owe us for more than a year. We mention this fact because we believe that it shows better than any other evidence that The Progress is appreciated by those who know of it.

Our List Analyzed

It may appear unusual to our readers and to the advertisers of Clearfield to see these pertinent facts publicly paraded but our action is in perfect harmony with every publication honestly bidding for patronage. We aim to show the advertiser what we have to offer and guarantee our figures. Today we publish 2430 papers; 2383 go to reguar patrons and the balance are retained for office sales. To show the appreciation our readers have for The Progress we have checked up this list and find that of the 2383 subscribers 1200 are paid in advance, 401 owe for periods up to one year and only 21 owe for a full year. The balance owe for only the current month.

Cards on The Table

It will be seen from the above statements that we have laid our cards on the table. We invite any advertiser or prospective advertiser to check up our list and verify it. We extend the same courtesy to the Merchants bureau of the Chamber of Commerce. We claim the largest circulation of any newspaper in Clearfield county and our claim has not been disputed or challenged.

Our Delivery System

For a small city daily we probably maintain the most extensive delivery system in this part of the state. In Clearfield alone sixteen boys are employed and every part of the town is covered thoroughly. In Curwensville three boys under the capable management of R. K. Way who is the authorized agent look after the delivery there. A boy is employed at Grampian, one at Woodland and one at Glen Richey. Agencies are maintained at Philipsburg, Bigler and at Osceola.

Our Appreciation

While we have been unceasing in our efforts to give Clearfield a clean, bright, newsy daily paper, the results obtained through our subscribers have really surpassed our expectations and while this is not New Year's day and resolutions or pledges are not in order we do desire to say that we intend giving the news while it is hot, serving it in good quantity and incidently lend our aid to every campaign put forth which has for its purpose the ultimate victory of the Allies.

RAILROADERS ARE NOT INCLUDED IN FEDERAL AID ACT

Washington, Feb. 5—That employes of the national railroads are not to be given the privileges of the federal employes compensation act was practically assured today when the House Interstate Commerce committee struck from the bill the administration's provision extending the act to railroad men. The Senate committee took similar action last week.

PLACE PRISONERS IN DANGER ZONE

London, Feb. 5—An announcement that the Germans were placing captured British officers in the localities raided by the allied airmen was made in the House of Commons today by Member of Parliament MacPherson. MacPherson declared that the British were contemplating reprisal.

AIRPLANE ROUTE TO SWEDEN

Trelleborg and Sassnitz to Be the Termini of the Proposed Line Connecting With Germany.

The following bulletin on Trelleborg and Sassnitz, the termini of the proposed Swedish-German airplane route, which assumes special significance in the light of recent developments in the diplomatic relations between Germany and Sweden, has been issued by National Geographic society.

Between Trelleborg, the most southerly town in the Kingdom of Sweden, and Sassnitz, a summer resort on the northeastern shore of the German island of Rugen, express steamers in times of peace make regular trips across this arm of the Baltic in four hours. This is the chief water link in the 24-hour express service between Stockholm and Berlin. Neither town would be of any importance were it not for the fact that they are the termini of this steamer service.

Trelleborg is a quaint old town of some 10,000 inhabitants, lying 20 miles southeast of Malmo, capital of Skane, teh most populous province in all Sweden. It is only 16 miles from Malmo to the Danish capital, Copenhagen.

Sassnitz is one of several popular seaside resorts on the Island of Rugen, the largest insular possession of Germany, having an area about equal to that of Cape Cod. Only about 2,500 people make Sassnitz their permanent home, but during the bathing season in times of peace the village is visited annually by more than 20,000 pleasure seekers.

The water trip from Trelleborg to Sassnitz is 60 miles. Thus the rail-and-steamer distance between Stockholm and Berlin is 415 miles.

The Toll France Has Paid.

Four-fifths of the women in France wear mourning, say the correspondents, and we believe them, but we are not among those who credit reports of a France "exhausted" and "bled white," observes a war writer. French women go into mourning on the smallest provocation. Rye shops abound. Every little way in a French city one encounters the sign, "Mourning in 24 hours." When madame puts on black, no one straightway infers the demise of monsieur. Much more likely an uncle by marriage had dropped off, or perhaps some eighth cousin thrice removed. It is always possible that, for one wooden cross on a battlefield, there will be six dozen gowns at the dye shop. No one denies that the French army has suffered terrible casualties. No one feels inclined to understate them, the French least of all. But only Americans who have never lived in France will imagine that the swarms of black-clad women indicate a proportionate number of dead Poilus. The truth is, Poilus were never so plucky as today, never so efficient, and, despite heartbreaking losses, never so numerous.

GERMANS ATTEMPT MANY RAIDS ON U. S. FRONT

(By United Press)
By J. W. Pegler

With The American Army In France, February 4. (Delayed.)—Repeated German attempts to raid the American front today were defeated by crushing barrage by the Yankee artillery. The Germans are willing to lose heavily in men and material for information rgarding the width of the American front on the fighting sector. The attempt after attempt to raid the American defenses made officers believe that the enemy is apprehensive. It is not positive whether the Germans planned to make an effective raid but the Americans' heavy barrage caught the Germans before they were able to go over their own top.

HAIG'S REPORT

LONDON, FEB. 5.—Many Germans were killed, many taken prisoner and a number of machine guns were taken in a successful British raid south of Fleurbaix and in the neighborhood of Ypres-Stoden railway last night, Haig announced today.

WASHINGTON, Feb. 5.—The workless Mondays will be continued indefinately. This was the unofficial announcement of the Fuel Administration today following a conference between Mr. Adoo and Fuel Administrator Garfield.

UNDER THE CAMOUFLAGE

Intimate War Experiences and Observations of LOWELL MELLETT

(United Press Staff Correspondent)

Paris, Dec. 1.—The train for Versailles is a nine o'clock train which leaves at 9.30. It is a half hour's run on the schedules but the train arrives at 11 o'clock.

The Palace Hotel is located somewhere around the corner from the Trianon Palace. I didn't see it. As the horse, exempted from army service for the reason that his gait was more like a retreat than a charge, turned into a street somewhere in the vicinity of the hotel, half a dozen French officers—not mere privates—barred his path and he joyfully stopped. The officers explained that the hotel was "out of bounds" for the public, the public meaning everybody except the military.

So I had to leave Clemenceau, Lloyd George, Col. House and the rest working out the problems of the Supreme War Council unaided and tram back to Paris.

The gardens of the Trianon were not interdite—that word crops up as frequently as verboten is said to in Germany. But the gardens were bleak and cheerless in the winter wind.

Met Charles Grasty, of the New York Times, later in town. Seems he had landed in the Palace hotel parlor on the strength of his military bearing or something, but that he had landed outside again soon after. He had a complaint to make about the War Conference to the effect that the better you knew the conferees the less you learned. It's often thus.

Inez Haynes Gilmore, who calls her husband Will Irwin, that being his name, is having an interesting time in Paris.

"There's so much to see and write about that it is almost bewildering," she averred.

Mrs. Herbert Adams Gibbon, present likewise, gave me the reassuring information that her husband is not the venerable greyheard that his admirable articles on international politics would lead one to suppose; contrarily, he is only 37. It will be possible to read his stuff for some years yet.

Both Irwin and Gibbon have been enlisted for war work. Irwin is lecturing to Americans in Y. M. C. A. huts at the front and Gibbon is lecturing in the south of France to the French people on the subject of America.

Enjoyed a talk with Lord Northcliffe this morning at an ungodly hour of his choosing. Found his apartments as busy as one of his newspaper shops.

General Pershing had just preceded me. Northcliffe declared his admiration of Pershing: "A fine leader of a fine army."

When the new Viscount becomes vigorous in his gestures he reveals a very palpable sign of his Americanization. He keeps his pants up with a belt!

Dined in a little place at the far end of the ue Montmarte, where the proprietor confers personal solicitation and handshakes on frequenters. Young Seldes, guide on this occasion was the proud recipient of a free handshake.

Paris, Dec. 3.—Getting out of Paris is harder than getting in; its a vastly more complicated process. Unless you are a "special case," it required eight days notice. I happen to be a special case, since the work of the United Press is listed among the things of Allied importance; help even so France's beautiful capital showed a distinct disinclination to sever our pleasant acquaintanceship with anything that could be called abruptness.

Found Howard Wheeler, editor of Everybody's Magazine, sitting dejectedly in a room at the Maison de la Presse.

He cheered up when he saw me, but the reason wasn't exactly flattering.

"Huh," he snorted, "wait till you've been through the mill!"

Entered M. Eduard Dollean. He presented Wheeler with three letters, marked No. 1, No. 2, and No. 3. He enumerated the three persons, in three separate places, in three different parts of town, to whom the letters were to be presented.

"Then I'm all through; I can go, can I?" demanded the Youngest of Big American Magazine Editors.

"Yes—" began M. Dollean.

The sun came out from behind the clouds on Wheeler's face. He grasped his host's hand in a hearty and absolutely farewell shake.

"—except, you must have five photographs," M. Dollean concluded.

"Mon Dieu!" gasped Wheeler—in English.

He dropped M. Dollean's hand and dashed out. I found him looking hopelessly for a taxi a few minutes later, for M. Dollen had asked me to return at 3.45 p. m., when, he said, there would be three letters waiting for me.

Took Wheeler ovr to the hotel and cheered him up with the remainder of my dollar's worth of jam.

At 3.45 found M. Dollean's room vacant for Reginald Wright Kauffman. Presently Dollean arrived bringing M. Besnard, one fo his colleagues, whom he wished to introduce to Kauffman. The latter appreciated the honor, since Besnard is author of about the most popular comedy now running in Paris, "Mon Ami Teddy." They had a long and earnest bi-lingual conversation about plays and things the Parisian being particularly interested in our young Mr. Sheldon, author of "Salvation Nell" etc.

An hour elapsed. Having hemmed once or twice without effect, I now hawed. M. Dollean apologized for the delay and went away for half an hour. We talked about plays some more. We kept on talking till Kauffman found he had to go. M. Besnard soon had to go also. Dollean and I stuck gamely at our conversation.

It's a long story if it's all told. I got my three letters at 6.10 p. m.—after all three of the addressees had gone home to dinner.

Said good-bye to the Colonel. Have come to the conclusion that I like Col. House. It's an easy conclusion to reach if you see much of him. He impresses you as being genuine; he is direct and simple, with a simplicity that seems real, not affected. So much has been written of his silence and secrecy that one might get the picture of a mole, burrowing in the dark ground. But that isn't Col. House. I believe he likes people and likes to be with people.

Who put the "pain" in campaign?

It does not matter how much money we gave to the Red Cross or how many Liberty Bonds we bought if we do not observe meatless and wheatless days we are doing nothing that means a real sacrifice for the boys who are already across the water.

Today marks two months of unbroken zero weather. A record that, so far as reliable information is concerned, we believe has never been broken. On the 5th day of December hunters came in from the mountains half frozen. Those who stayed at the camps over the following Sunday were snowed in and unable to hunt for several days. From that day until this we have had warm weather for only a few hours at a time and no relief is promised until the beginning of next week. Truly Satan and the Kaiser must be working hand in hand against Hoover and McAdoo.

It is a matter of considerable pride for us to know that this column of The Progress is quite generally read by all of our subscribing families and that many of the comments we hear on it come from the female members of the family and we oftimes keenly feel our inability to vary the subject matter daily so that there will be some article of interest to every member of the family. Particularly is this true in political editorials but even this phase of editorial writing has many followers among the women of our community as every day they are coming closer to the righ of franchise, and more than that, they are each day taking on greater activities with a view to a quick and successful terminaton of the war and this fact alone entitles them to a share in the formation of our national destiny through the medium of a wholesome interest in national politics.

Within ten days, unless transportation troubles prohibit, we shall witness the departure of twenty-one of "our finest" for Camp Lee, there to be trained into stalwart defenders and incidently made over into healthy, ruddy, manlike men after the very fashion of their Maker. We will have with us on that day the proud mother, she who sends her boy away with a tear and a smile and her eyes sparkling with pride. The younger brother will strut like a peacock because his brother is going to the army. Sister too is planning the box she is going to send him for his first Sunday dinner. Dad feels a little unnatural too, but right down in his heart he is proud of his big kid and what he is about to get into. Though there are partings that pull at the heart strings and happy little homes that are broken up for a time, every family displaying a service flag is justly proud to display it and that absent one exerts a powerful influence for real love and patriotism in that home. In such a war as this when we go to war with the highest possible motives and with the liberty of the world to fight for it is unfortunate that we must put up with the whimpering, simpering, "old women," male and female, who make entraining day have the appearance of a storm on the mountains rather than an April shower.

U. S. FORCES HAVE PERMANENT PLACE IN FRONT TRENCHES

American troops were in trenches in Lorraine three months ago, but this apparently was only a temporary assignment during training. At that time, according to an official German announcement the Americans were on the front at the Rhine-Marne Canal, which intersects the battle line near the German border, due east of Nancy. This announcement was made in the official report from Berlin of the first German raid on the American positions, in which three Americans were killed, five wounded and twelve captured.

Where the Americans Are

The eastern end of th battle line in France and Belgium runs through French and German Lorraine. French Lorraine, in which is the American sector, is included in the Departments of Meuse, the capital of which is Verdun; Meurthe-et-Moselle, whose capital is Nancy, and Vosges, with the capital at Epinal. The length of the front in French Lorraine is about 150 miles.

This section of the battle line extends into the Meuse from the Marne near St. Menehould and runs eastward to the north of Verdun, south of St. Mihiel and east to the German border. There it turns to the southeast and almost parallels the border to the vicinity of Leintry. Below Leintry it cuts across a section of French soil, past Badonviller and Cirenes and to the east of St. Die, and again crosses the German border at a point west of Colmar. The remainder of the line to the Swiss boundary is in Germany.

Since the battle of Verdun there has been no fighting of great importance along this front. For the most part it runs through high and broken country. Since the present battle line was established early in the war there has been comparatively little activity on the front to the east of the Verdun sector, the nature of the country making large operations impracticable.

FINE FOR [illegible]

MUSTEROLE

THE ONLOOKER FURTHER DESCRIBES THE MANUFACTURE OF SILK PLUSH

We had just taken that silk velvet off the loom yesterday when the fellow that allots the space told us we must quit, so we'll finish telling you about the trip tonight.

The newly woven velvet is then taken to a machine on which there is a metal bristled brush which, revolving at a great speed just close enough to the nap of the goods, cleans out all bits and broken threads; and this machine also cuts this web into two regulation widths.

The velvet is then given a close inspection for flaws and passes to another machine which could be well named the lawn mower. On this machine there is a knife much on the order of th blades on your lawn mower which operates at a tremendously high speed and just at the proper height to cut the nap uniformly so that the velvet gets that even smooth appearance. The velvet then passes into another machine which steams and presses the goods and gives it that lustre that milady demands when she says she will have a velvet gown.

The heat and ventilation of the mill are worthy of mention in view of the fact that every particle of air that passes into the mill has been washed by passing thorugh a fine spray of water which takes out every bit of dust and dirt and at the same time sends air, heated during the present season to just the proper temperature, and with humidity enough therein to keep the workers from getting drowsy. This is an ideal mill condition, as the workers are breathing air that is just as pure as when it drops down over the hill above the mill and there is none of the pallor and worn look on the faces of operatives that we have always associated with such manufacturing plants.

The workers, men, women and girls all seemed keen and alive to their work and seemed to be interested in getting out as much as they could. Upon inquiry we found that the work is mostly what is called piece work and the workers getting so much for their respective operations in the production of the velvet. We asked Mr. Geynet about the wages earned by the workers and he stated an instance where one of the workers had averaged over $15 a week during the year 1917 and that even learners were paid no less than $5 a week. Even at that he said that girls were hard to get and added that he could put fifty girls at work right now but the trouble was to find the girls.

The company has taken up the industrial and housing problem and has erected good substantial brick houses in what is known as Mill Addition and these houses are modern in every respect. They are built en block with two houses to the block. Families that have girls or middle aged women who can work in the plant are given these houses at a nominal rental which should fill the few remaining unfinished at the present time just as soon as they can be occupied.

We have presented this little trip just as we remembered it. Some of the operations in the mill we may have gotten twisted but we have written this local industry up so that our townspeople may know a little of what is within our gates.

OVER 80 YEARS BUT IS RUGGED

Mrs. Robbins Looks and Talks Like Woman 20 Years Younger

Mrs. Isaac Robbins, of River street Carbondale, Pa., woman over 80 years old, said recently:

"I suffered dreadfully with rheumatism. Last winter I had a very severe case of grip which simply aggravated my rheumatism. My hands and arms were swollen terribly and they were, oh! so sore. I never thought I would be any better.

"I read about the good that Tanlac had been doing for others and I got a bottle.

"Tanlac has removed every bit of pain and I do not have a bit of rheumatism now. My appetite is good and since the pain stopped I sleep like a child. The swelling has gone too. My arms are now like they should be and I feel as young as ever I did.

"I recommend Tanlac because it did me so much good that perhaps, it will help others like it did me. I am willing to talk with any poor sufferer that cares to know more about it before trying it. I think it wonderful."

The famous Tanlac is now sold here by Woodward & McPherson.

CRACK BAND WILL GIVE CONCERT FOR RED CROSS BENEFIT

Preliminary arrangements were completed yesterday afternoon for the coming band concert to be given by Crescent Band of Curwensville in the High School Auditorium.

This musical organization which is a part of the welfare work of the Crescent Refractories Company has kindly proferred their services to the Clearfield Chapter American Red Cross. This is another instance of the deep interest that the officials of the erstwhile Bickford Fire Brick Co. have taken in the furtherance of the Red Cross work.

The date set for the concert is Tuesday, February 12, and although this is the date upon which all places of amusement are closed exceptions have been made for this occasion in view of the fact that it is for war work.

It will be remembered that the Crescent Band is the band that made such a decided hit at the county fair last fall and we are informed by Mr. J. Clark Boyer, the manager of the band, that the men are rehearsing three nights a week in preparation for the coming concert.

Cupid Black, Chuck Barrett and Barney Gerrish, three of the Newport Naval reserve football stars, have been commissioned ensigns and are now on active duty.

DECATUR COUPLE MARRIED 50 YEARS

Mr. and Mrs. Robert Wilson completed fifty years of married life on Jan. 31st, 1918. The event was celebrated by a gathering of their descendants and friends at their home in Decatur township. The couple were married in Galston, Scotland, and came to this country in 1887 and have lived in their present home for 28 years. They were blessed with a family of eight children, five of whom are surviving. They have forty-two grandchildren and six great-grandchildren, all of whom were present at the celebration with the exception of one grandson, who is in training with the forces at Camp Grant.

The aged couple were the recipient of many valuable gifts ,including a purse of gold. Rev. S. T. Lewis, of Osceola Mills, presided over the gathering and conducted a short religious service after which the company partook of a splendid supper provided for the occasion.

Mr. Wilson has followed coal mining nearly all his life and considering his years, is in a remarkable good state of health and is able to read the smallest print without the aid of glasses. Mrs. Wilson is also pretty active for her years. Their respective ages are 72 and 68.

For Burning Eczema

Greasy salves and ointments should not be applied if good clear skin is wanted. From any druggist for 35c, or $1.00 for extra large size, get a bottle of zemo. When applied as directed it effectively removes eczema, quickly stops itching, and heals skin troubles, also sores, burns, wounds and chafing. It penetrates, cleanses and soothes. Zemo is a clean, dependable and inexpensive, penetrating, antiseptic liquid. Try it, as we believe nothing you have ever used is as effective and satisfying.

MEAT CAUSE OF KIDNEY TROUBLE

Take Salts to flush Kidneys if Back hurts or Bladder bothers

If you must have your meat every day, eat it, but flush your kidneys with salts occasionally says a noted authority who tells us that meat forms uric acid which almost paralyzes the kidneys in their efforts to expel it from the blood. They become sluggish and weaken, then you suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sours, tongue is coated and when the weather is bad you have rheumatic twinges. The urine gets cloudy full of sediment the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To neutralize these irritating acids, to cleanse the kidneys and flush off the body's urinous waste get four ounces of Jad Salts from any pharmacy here; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia and has been used for generations to flush and stimulate sluggish kidneys, also to neutralize the acids in urine so it no longer irritates, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure, and makes a delightful effervescent lithia-water drink.

DRINK HOT TEA FOR A BAD COLD

Get a small package of Hamburg Breast Tea at any pharmacy. Take a tablespoonful of this hamburg tea, put a Scup of boiling water upon it, pour through a sieve and drink a teacupful at any time. It is the most effective way to break a cold and cure grippe, as it opens the pores, relieving congestion. Also loosens the bowels, thus breaking a cold at once.

It is inexpensive and entirely vegetable, therefore harmless.

Try this recipe for Crullers and Doughnuts—you can help save the Nation's fats when you use Mazola for deep frying

MAZOLA

Mazola is a *vegetable* oil—pressed from corn.

It is the ideal medium for deep frying, sautéing, or shortening, because it is not only *economical*—it gives such splendid *quality*.

Crullers and Doughnuts

2½ cups bread flour
1 cup sugar
2 cup sour milk
2 tablespoons Mazola
2 eggs
½ teaspoon salt and ginger
½ teaspoon nutmeg and cinnamon
½ to ¾ teaspoon baking soda

Sift all dry ingredients except soda 3 times. Beat eggs, add milk, soda and Mazola, pour on dry ingredients. Mix well, turn on floured board, roll or pat in ¼ inch sheet and let stand a few minutes to rise. Cut and fry in hot Mazola.

Get Mazola from your grocer in pint, quart, half-gallon or gallon tins And ask for the free Mazola Book of Recipes, or write us direct.

Your money refunded if Mazola does not give entire satisfaction.

DREAM OF THE U. S.

In dreams I hear the rumble of the fall of Germany
And the shouting of the Sammies o'er their wondrous victory.
I hear the whir of zeppelins as in vain they try to flee;
Our flag is marching on.

[redacted]

They have captured all the trenches and the dug-outs of the Hun;
They have seized their ammunition, all their foodstuffs and their guns.
They have lined up as their prisoners many thousand German sons;
Our boys are marching on.

No more ships will be torpedoed as they sail across the sea.
For the submarines are conquered and from mines the coast is free;
Access to the ocean is a part of liberty;
Our day is marching on.

I see the banners flying and hear the rolling of the drum,
I can hear the glad hurrah! rah! as up the street our brave boys come;
We are done with German tyrants, once for all the world is free,
Our God is reigning on.

MANY PUPILS GAVE SPEECHES OF THEIR OWN PRODUCTION

Following is a worthy contribution **written** at the Carnwath school on the **occasion** of Patriotic Week observance **there.** We would like very much to **give more** of these but space prohibits **for using** many of them.

The United States was forced into **the European** war by repeated insults **of the German** government on the **high seas,** by acts of aggression, and **by Germany** endeavoring to spread **sedition** and corruption among our **people.**

Austria blamed Servia for the as**sassination** of a royal prince and this **pretext** was used by Germany to in**vade and outrage** Belgium and to sink **our mercy** bound ships to these en**slaved and impoverished** peoples.

The Lusitania, with her innocent **cargo** of men, women and children **was sent** to the bottom of the sea **where their only** requiem was sung **by the overwhelming** floods and the **fiendish** dirges of the Kaiser's cohorts. **The Sussex** suffered a same fate and **ship flying** the Stars and Stripes were **sent to the bottom** by scientific bru**tality of the German military** ma**chine.**

What was left for us to do when **Germany killed** our ship crews and **passengers,** and notified us (Feb. 1, **1917) that she** would sink our ships **when they** came within waters that **she mapped off** for us to stay out of? **One thing only** was left for us and **that was** to fight. "So near to grandeur is our dust,
So near to God is man
When duty whispers, 'lo, thus must'
The youth replies 'I CAN'."

The Carnwath schools mean to stand by the flag.

"Your flag and my flag
And how it flies today
In your land and in my land
And half a world away!
Rose-red and blood-red
The Stripes forever gleam.
Snow-white and soul-whitee
The good forefathers' dream.
Sky-blue and true-blue, with stars to gleam aright—
The gloried guidon of the day, a shelter through the night.

"Your flag and my flag!
And, oh how much it holds—
Your land and my land—
Secure within its folds!
Your heart and my heart
Beat quicker at the sight;
Sun-kissed and wind-tossed—
Red and blue and white;
The one flag, the GREAT flag—the flag for me and you—
Glorified all else beside—THE RED AND WHITE AND BLUE."

DRINK WATER TO AVOID SICKNESS SAYS AUTHORITY

Glass of hot water before breakfast daily keeps the doctor away.

Sanitary science has of late made rapid strides with results that are of untold blessings to humanity. The latest appreciation of the untiring research is the recommendation that it is as necessary to attend to internal ablutions of the drainage system of the human body as it is to the drains of the house.

Those of us who are accustomed to feel dull and heavy when we arise, splitting headache, sufferers from a cold, foul tongue nasty breath, sour stomach, sour, instead feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the lateral poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver and bowels the previous days indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It clears out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast that the phosphated hot water is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions oif people who are bothered with constipation, bilious spells, stomach trouble, rheumatic stiffness; others who have sallow skins blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store. This will cost very little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.

COURT NOTES

Sheriff Anthony Gorman held his first real estate sale ysterday in the Arbitration Room and sold the hotel property of Ross Sheffer at Winburne to John Fryberger, Trustee, for the sum of $5,000.

Judge Bell made an order or decree yesterday directing that the estate of Patrick J. and Gertrude Maylon, late of Osceola, be partitioned and divided among the legal heirs.

L. E. Bayer, Esq., discontinued the suit of Miles & Co., of DuBois, against the New York Central Railroad Company.

Judge Bell handed down an opinion in which he refused a new trial in the case of J. C. Henry vs. D. W. Anderson. This suit was tried before Judge Bell in May last and the jury rendred a verdict in favor of Mr. Henry in the sum of $800, being amount due on a timber making contract. Following the verdict Mr. Anderson moved for a new trial, but the verdict is allowed to stand. W. I. Swoope, Esq., represented the plaintiff in the case.

Mrs. Jessie Bowman, of Clearfield, has been granted a divorce from her husband, H. L. Bowman.

Mrs. Cecilia Foltinski made application in Prothonotary Moore's office yesterday for a divorce from her husband, Paul Foltinski. The petition states the fact that the marriage occurred November 24, 1913, and that th husband deserted November 25, 1913, and has not been seen since.

FEW DROPS AND CORN LIFTS OUT

Says there is no excuse for cutting corns and inviting lockjaw

Sore corns, hard corns, soft corns or any kind of a corn can painlessly be lifted right out with the fingers if you will apply directly upon the corn a few drops of freezone, says a cincinnati authority.

It is claimed that at small cost one can get a quarter of an ounce of freezone at any drug store, which is sufficient to rid one's feet of every corn or callus without pain or soreness or the danger of infection.

This simple drug, while sticky, dries the moment it is applied and does not inflame or even irritate the surrounding tissue.

This announcement will interest many women here, for it is said that the present high-heel footwear is putting corns on practically every woman's feet.

LETTERS FROM OUR SOLDIER BOYS

Camp Forrest, Ga.,
Feb. 1st, 1918.

Dear Editor:

I have been placed on the officers' reserve list in class C and while I am waiting on my commission for active service in France I have transferred to army Y. M. C. A. work. I am physcal director of the Y. M. C. A. of the 51st Inf., a full regiment of 1800 men. While I was in the second officers' reserve training camp we dug eight miles of trench and had the experience of fighting and sleeping in the several days and nights. It rained for two days and nights and we waded through mud up to our knees. It was too much for some of the men.

I am glad to know that several of the hundreds of young men I taught military drill in Clearfield, Philipsburg and Tyrone are now officers and non-commissioned officers in the U. S. army.

I am kept busy with athletics. Have fourteen basket ball teams in a regimental league and we have competitive indoor and outoor athletic meets. Our 14 building are crowded all the time with soldiers and they keep me busy entertaining them in one of the buildings every night. I give illustrated lectures on my travels around the world and Alaska and the Philippines, giving exhibitions of Indian clubs and electric club swinging and sleak wire walking.

These Southern ladies from Chattanooga, Tenn., motor out to the fort and give good entertainments and every Thursday they come out and mend the soldiers' clothes and they live up to the much talked of Southern hospitality by taking the soldiers into their homes for lodging and meals.

There are over 40,000 U. S. army regulars at this camp.

Tell the Pennsylvania ladies if they have any more sweaters left after they have supplied the National Army men with them there are thousands of regular army soldiers in this camp who would appreciate a sweater.

Yours sincerely,
CHARLES E. GRAFFIUS,
Y. M. C. A., Bldg. 25
Chattanooga, Tenn.

HEAD STUFFED FROM CATARRH OR A COLD

Says Cream Applied in Nostrils Opens Air Passages Right Up.

Instant relief—no waiting. Your clogged nostrils open right up; the air passages of your head clear and you can breathe free-ly. No more hawking, snuffling blowing, headache, dryness. No struggling for breath at night; your cold or catarrh disappears.

Get a small bottle of Elys Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic, healing cream in your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swollen mucous membrane and relief comes instantly.

Its just fine. Don't stay stuffed-up with a cold or nasty catarrh.

Adaptable and Popular Furs

The aptitude for wearing clothes in the right way has more to do with successful dressing than the style of the clothes themselves. American women have earned a reputation for a fine sense of style and fitness—that is—a "sense of clothes." Perhaps this is the reason they have taken so kindly to the capes and flat scarfs of fur that have proved, by a long way, the most popular furs of the season. These flat neck pieces are adaptable and easy to adjust.

Furs that may be worn either to muffle up the throat and shoulders, over warm coats out of doors, or to be thrown about the shoulders indoors, could not fail to please. Whether any ingnisitive draft of air finds its way to thinly clad shoulders or not, the fur piece is a most becoming guard against it. At concerts and club meetings, dances and restaurant dinners, coats are discarded but the fur neck piece sees its duty and does it nobly. It stands by the bodice or blouse of crepe, makes the uncovered throat plausible and tones up whatever costume it happens to be worn with.

At the center of the group of fur pieces shown in the picture, the shape most popular in capes appears. This style is made up in all the soft, flat furs as mole, ermine, seal, kolinsky, squirrel and mink. In the picture it is developed in chinchilla. The cape is lined with soft gray messaline satin and ties are made of the satin finished with a ball and band of fur at the ends. It has a straight band of fur, without the white stripe that appears in the cape, for a collar. Very often two kinds of fur appear in these capes.

The cape at the right is of Hudson seal with shawl collar of ermine without the black points—or tail tip—that are shown in the muff. This cape is full enough to ripple a little and is longer at the front and back than over the arms. It is lined with soft dark brown satin.

All kinds of fur are used for the flat scarfs that are wide enough to form capes for the shoulders. They are usually about a yard and a half long and are sometimes discovered to have pockets inconspicuously placed in each end. Just what they are there for is to be solved by each woman for herself.

Step Lively! Corns Quit With "Gets-It"

The Great Corn-Loosener of the Age. Never Fails. Painless.

Watch my step? What's the use! I go along "right side up without care" even with corns, because I use "Gets-It," the painless, off-like-a-banana-peel corn remover. I tried other ways galore, until I was blue in the face and red in the toes. No more for me. Use "Gets-It." It never fails. Touch any corn or callus with two drops of "Gets-It" and "Gets-It" does the rest. It's a relief to be able to stop cutting corns making them bleed wrapping them up like packages and using sticky tape and salves. It removes any corn clear and clean leaving the toe as smooth as your palm. You can wear those new shoes without pain dance and be frisky on your feet. It's great to use "Gets-It." "Gets-It" is sold at all druggists (you need pay no more than 25 cents a bottle), or sent on receipt of price by E. Lawrence & Co. Chicago, Ill.

SPORT CHATTER

Jim Cocey, the New York heavyweight has turned down an offer to meet Tom Cowler in Boston.

During his five years with the St. Louis Brown Derrill Pratt, the Yankee's new second baseman, missed but one game. Umpire Dineen kicked Derril's record by chasing him out of a game in 1914.

Mike Donovan, at 70, is still able to hit and sidestep with the best of them. The Grand Old Man of the ring, who for many years has been boxing instructor of the New York A. C., is now teaching our soldiers how to handle the mitts.

The Red Sox have lost another pastimer. Jimmy Cooney, their young infielder, has joined the colors and is now at Camp Devens.

FIRES OF REVOLT SMOULDERS AS IRON HEEL CRUSHES HOPES OF STRIKERS

(By United Press)

By Ed. L. Keen

London, Feb. 5—German militarism is still supreme in the Central Powers. Its iron heel has crushed down practically the last vestige of resistance by the enslaved starving common people through its threat of the supreme penalty and because the strikers also feared for the fate of the women and children. The strikers have practically all returned to work. Only one isolated case was reported today. That was at Jena where the Tageblatt said one-third of the employees walked out Saturday.

There is a disposition among officials and students of economics here to regard the waning of the general strike as only a temporary surcease in the industrial and political problem. The work of the extraordinary court martial in its extreme penalty has added fuel for further trouble.

Will[illegible] Dittman, Socialist member of [illegible]ichstag was sentenced to five [illegible], imprisonment for "inciting high treason" and was given an additional six months for resisting government officials. Imperial Chancellor Hertling previously refused to interfere in the Dittman case because he could not invoke civil procedure as long as the military authorities were in charge. Henrich Schultz, another popular leader as given six months for distributing strike literature.

Dispatches from Jan Bruna, United [illegible] correspondent at The Hague, and official dispatches from Washington support the above story from Ed. L. Keen. Bruna declared that 10 per cent. of all war workers in Germany went out on strike Friday. The work of the government in giving Dittman, Independent Socialist five years will only serve to prove disastrous to the Kaiser in the future. The strike in Germany was "spontaneous" Bruna declared. Majority Socialists drawn in by Phillip Schiedemann their leader and the Minority Socialists by Hasse and Dittman gave much strength to the Socialistic element. One of the effects of the strike will be to widen the breach between the comon people and the "middle class." Prominent Germans do not hesitate to declare that the Socialists are far apart from the government liberals and the Central Party members. The stamping out of the general strike by the iron heel of the imperial government will leave a mark upon the masses which will fester and burn.

Amsterdam, Feb. 5—Semi-official dispatches received here from Germany today confirmed reports from various sources that the Junkerites had achieved another victory in the Central Powers by suppressing the general strike. 75,000 to 70,000 employes of the Borsig factory at Teger and other big plants returned to work today the dispaches said. It was declared that "futher abatement" of the strike was expected today.

GERMAN WRITER IS BLAMING TIRPITZ

Amsterdam, Feb. 5—Von Tirpitz's theory of a speedy overthrow of England by the submarine warfare "have fallen down in the light of developments in the last twelve months," Vice Admiral Von Galste declared in an article published in a German magazine received here today.

"There is no doubt but that those who urged immediate submarine warfare in 1915 and 1916 were deceived regarding the time it would take to build the U-boats, and the capital it would take," Van Galster declared.

ATTENTION CURWENSVILLE

Merris and Pentz will relate their experiences on the battle front in the Presbyterian church at Curwensville Thursday evening instead of Friday evening as perviously stated.

Clarence Butler and Blair Ogden, two local boys at Camp Lee, will arrive home on a five day furlough this evening and we expect them to tell us just how they are going about it to land the Kaiser when they get "over there."

The Western Golf association has bought $3,000 worth of Liberty bonds and donated several thousand dollars to the Red Cross.

Orvie Overall, one-time star pitcher of the Cubs and now a rancher near Visalia, Cal, is a candidate for sheriff of his county.

New Orleans promoters will most likely accept Jack Britton's terms for a go with Johnny Dundee. Jack's figures are $1,500 won, loose or draw.

Jim Duncan, holder of the world's discus record, is a first sergeant of the 11th Engineers now on duty in France.

Handball seems to be the favorite spoirt in San Francisco this winter. At a recent tournament in that city nearly 100 players took part.

SENATOR WADSWORTH SEES HARDEST KIND OF WAR PREPARATIONS AHEAD

(By United Press)

Washington, Feb. 5—"Lack of vision" is stalling American war strength, Senator Wadsworth declared in Senate today. "We have suffered and will continue to suffer unless a direct agency is created. I entertain the belief that the end of this war is not in sight and we shall travel a long hard road before we reach the goal. I feel certain the struggle is growing more and more serious as months go by. Americas' effort must continue to expand. We must send more and more troops abroad. Build more and more ships. Produce more and more food to feed ourselves and our allies and we must increase our mines' production and improve our transportation and manufacturing facilities. In short I am convinced that we are only on the threshold of this stupendous undertaking."

Firing the second volley into the war administration Wadsworth continued "through blindness the war found this country pathetic in its unpreparedness." Since then he added, "this great American giant has been stumbling and groping."

TWENTY-FOUR GET BY ARMY TEST EXAMS HELD YESTERDAY

The first examination of national army registrants for District No. 1 since the men were classified under the new questionnaire plan was held at the headquarters of the Exemption board in the Murray building yesterday afternoon.

During the four or five hours the corps of physicians were at work a total of sixty-five men went through the examining ordeal. A large majority of these had been rejected at the first examination and as a result, even though the requirements now are not near as stringent as they were then, but twenty-four men were selected and will be certified for service.

Under the new regulations all those rejected by the local board are considered but conditional rejections, and each and everyone will be required to proceed to DuBois where they will undergo a further physical going over at the hands of a board of medical examiners appointed to do such work for the three boards in Clearfield county. These examinations will be made at the DuBois hospital.

The Exemption Board is required to furnish each registrant rejected with an order and transportation to DuBois for this final examination.

The men selected by the local Exemption Boards will all be certified for first line military service, while the purpose of the second examination is to select the men whose defects can be remedied or who can be made available for other military duties or work behind the lines or where needed by the war department.

This final examining board will have each registrants questionnaire and card containing his industrial capability and will work their examination with a view to determining whether the applicants physical condition is such as to warrant the government in taking him for work along the line at wrich he is the most proficient.

The examinations are being continued today and will be carried on from time to time as it suits the convenence of the Exemption Board until the entire eleven hundred men in Class 1A are all examined and properly listed for service. The names of those accepted for military service ollowing yesterdays examination are as follows:

Charley Gardner, Woodland.
John I. Harry, Clearfield.
Daniel A. Bailey, Clearfield.
Millard Wilson, Clearfield.
Clyde Ambrose Curry, Clearfield.
Thomas Aaron Leigey, Hyde City
Leslie James Gilliland, Curwensville.
Abe Harris, Clearfield.
Cannelo Gilormo, Clearfield.
Blase Placedo Plano, Hawk Run.
John Andrew Sotok, Morrisdale.
Edward James Redding, Clearfield.
Hillary Amy Beigley, Frenchville.
Guiseppe Lavini, Curwensville.
John Shaw, Hawk Run
George Leonard Phillips, Houtzdale.
Fred Wilson Lippart, Clearfield.
John Edward Swanson, Peale.
Wilbur Turner, Munson
John A. Black, O'Shanter.
John David Stevens, Hawk Run.
Dent S. Holden, Clearfield.
Amy A. Royer, Coudley.

These men will be sent to Camp Lee on February 12th next.

The war department has issued a call for the remainder of the men from this district due at Camp Lee to complete the quota of the first call. Previous to the issuing of the questionnaires this district had sixty-three men on the list to complete their total of 211 men under the first call and this latest call or order means that in addition to the twenty-one men to be sent away February 12th, the remaining forty-two will have to be secured from today's and subsequent examinations and be got ready to go to Camp Lee on February 23d.

It is quite likely that another call for men will be issued early in March, because it is generally understood that by that time at least 50 per cent. of the men in Camp Lee will have been sent elsewhere and the work of securing the second five hundred thousand army for training will have been begun.

RIDGWAY MAN IN LIST OF CANADIAN KILLED

Ottawa, Feb. 5—J. A. Murphy, of Ridgway, Pa., an American was reported killed in the Canadian casualty list issued here today.

He was reported to have met death through German sources.

The Editor Talks To His Readers

We like to think of our twenty-three hundred subscribers as a huge famiy to whom we can go each evening with the news of the day, the doings of our neighbors, the funny little things that happen as we wander along the path of life in a grim old real world, comment on the events of the times; past, present and future and finally leave them all the better for having been visited by our little paper, The Progress, of which we are, we believe, justly proud.

Our Part Comes First

A newspaper cannot altogether make itself. Its publishers must, of course, take the initiative and satisfy the appetite for the news of the evening hour but the financial support must come from the readers and from the merchants who patronize its advertising columns. There is a greater degree of dependence, one upon the other, between the reader, the advertiser and the published than at first thought appears.

Reader the Best Judge

The reader is the best judge of the value of a newspaper and if a newspaper passes his scrutiny, gets his O. K. and his yearly subscription, that we believe is the newspaper that the advertiser wants. The revenue the publisher gets from the advertising enables the publisher to hire help to gather news from the four corners of the earth and in this way the advertiser is directly benefiting the reader. In turn the reader more eagerly looks through his paper knowing that if anything happened that day he will find it in his paper. The publisher must treat the reader to the best that he can do and if he fulfills his duty to his subscriber his duty to the advertiser is done.

County Wide Circulation

Because of the two contests held by The Progress two and four years ago respectively, the circulation was county wide and the present management considered it inflated and not substantial and took great care at the expiration of those contest subscriptions to see that all were stopped as they expired. On the other hand efforts to gain in our own immediate territory, that is from Mahaffey to Peale on the New York Central and from Grampian to Osceola on the Pennsy, were made by giving all the news we could and paying particular attention to delivery of papers. Our aim was to concentrate what appeared to us to be Clearfields news territory.

Our Gain in Clearfield

Last August 15th the contest subscriptions had practically all expired and we were left with just 755 good paying patrons in the city of Clearfield (By paying patrons we mean just what the term implies. We have no dead men on our subscription lists and very few dead beats.) We point with justifiable pride to the fact that totay we deliver this issue to 1035 subscribers in this city by our carrier boys in addition to sending 160 out on the rural routes from the local postoffice. Of this entire amount of 1195 Clearfield subscribers only 11 owe us for more than a year. We mention this fact because we believe that it shows better than any other evidence that The Progress is appreciated by those who know of it.

Our List Analyzed

It may appear unusual to our readers and to the advertisers of Clearfield to see these pertinent facts publicly paraded but our action is in perfect harmony with every publication honestly bidding for patronage. We aim to show the advertiser what we have to offer and guarantee our figures. Today we publish 2430 papers; 2383 go to reguar patrons and the balance are retained for office sales. To show the appreciation our readers have for The Progress we have checked up this list and find that of the 2383 subscribers 1200 are paid in advance, 401 owe for periods up to one year and only 21 owe for a full year. The balance owe for only the current month.

Cards on The Table

It will be seen from the above statements that we have laid our cards on the table. We invite any advertiser or prospective advertiser to check up our list and verify it. We extend the same courtesy to the Merchants bureau of the Chamber of Commerce. We claim the largest circulation of any newspaper in Clearfield county and our claim has not been disputed or challenged.

Our Delivery System

For a small city daily we probably maintain the most extensive delivery system in this part of the state. In Clearfield alone sixteen boys are employed and every part of the town is covered thoroughly. In Curwensville three boys under the capable management of R. K. Way who is the authorized agent look after the delivery there. A boy is employed at Grampian, one at Woodland and one at Glen Richey. Agencies are maintained at Philipsburg, Bigler and at Osceola.

Our Appreciation

While we have been unceasing in our efforts to give Clearfield a clean, bright, newsy daily paper, the results obtained through our subscribers have really surpassed our expectations and while this is not New Year's day and resolutions or pledges are not in order we do desire to say that we intend giving the news while it is hot, serving it in good quantity and incidently lend our aid to every campaign put forth which has for its purpose the ultimate victory of the Allies.

RAILROADERS ARE NOT INCLUDED IN FEDERAL AID ACT

Washington, Feb. 5—That employes of the national railroads are not to be given the privileges of the federal employes compensation act was practically assured today when the House Interstate Commerce committee struck from the bill the administration's provision extending the act to railroad men. The Senate committee took similar action last week.

PLACE PRISONERS IN DANGER ZONE

London, Feb. 5—An announcement that the Germans were placing captured British officers in the localities raided by the allied airmen was made in the House of Commons today by Member of Parliament MacPherson. MacPherson declared that the British were contemplating reprisal.

AIRPLANE ROUTE TO SWEDEN

Trelleborg and Sassnitz to Be the Termini of the Proposed Line Connecting With Germany.

The following bulletin on Trelleborg and Sassnitz, the termini of the proposed Swedish-German airplane route, which assumes special significance in the light of recent developments in the diplomatic relations between Germany and Sweden, has been issued by National Geographic society.

Between Trelleborg, the most southerly town in the Kingdom of Sweden, and Sassnitz, a summer resort on the northeastern shore of the German island of Rugen, express steamers in times of peace make regular trips across this arm of the Baltic in four hours. This is the chief water link in the 24-hour express service between Stockholm and Berlin. Neither town would be of any importance were it not for the fact that they are the termini of this steamer service.

Trelleborg is a quaint old town of some 10,000 inhabitants, lying 20 miles southeast of Malmo, capital of Skane, teh most populous province in all Sweden. It is only 16 miles from Malmo to the Danish capital, Copenhagen.

Sassnitz is one of several popular seaside resorts on the Island of Rugen, the largest insular possession of Germany, having an area about equal to that of Cape Cod. Only about 2,500 people make Sassnitz their permanent home, but during the bathing season in times of peace the village is visited annually by more than 20,000 pleasure seekers.

The water trip from Trelleborg to Sassnitz is 60 miles. Thus the rail-and-steamer distance between Stockholm and Berlin is 415 miles.

The Toll France Has Paid.

Four-fifths of the women in France wear mourning, say the correspondents, and we believe them, but we are not among those who credit reports of a France "exhausted" and "bled white," observes a war writer. French women go into mourning on the smallest provocation. Rye shops abound. Every little way in a French city one encounters the sign, "Mourning in 24 hours." When madame puts on black, no one straightway infers the demise of monsieur. Much more likely an uncle by marriage had dropped off, or perhaps some eighth cousin thrice removed. It is always possible that, for one wooden cross on a battlefield, there will be six dozen gowns at the dye shop. No one denies that the French army has suffered terrible casualities. No one feels inclined to understate them, the French least of all. But only Americans who have never lived in France will imagine that the swarms of black-clad women indicate a proportionate number of dead Poilus. The truth is, Poilus were never so plucky as today, never so efficient, and, despite heartbreaking losses, never so numerous.

GERMANS ATTEMPT MANY RAIDS ON U. S. FRONT

(By United Press)

By J. W. Pegler

With The American Army In France, February 4. (Delayed.)—Repeated German attempts to raid the American front today were defeated by crushing barrage by the Yankee artillery. The Germans are willing to lose heavily in men and material for information rgarding the width of the American front on the fighting sector. The attempt after attempt to raid the American defenses made officers believe that the enemy is apprehensive. It is not positive whether the Germans planned to make an effective raid but the Americans' heavy barrage caught the Germans before they were able to go over their own top.

UNDER THE CAMOUFLAGE

Intimate War Experiences and Observations of LOWELL MELLETT

(United Press Staff Correspondent)

Paris, Dec. 1.—The train for Versailles is a nine o'clock train which leaves at 9.30. It is a half hour's run on the schedules but the train arrives at 11 o'clock.

The Palace Hotel is located somewhere around the corner from the Trianon Palace. I didn't see it. As the horse, exempted from army service for the reason that his gait was more like a retreat than a charge, turned into a street somewhere in the vicinity of the hotel, half a dozen French officers—not mere privates—barred his path and he joyfully stopped. The officers explained that the hotel was "out of bounds" for the public, the public meaning everybody except the military.

So I had to leave Clemenceau, Lloyd George, Col. House and the rest working out the problems of the Supreme War Council unaided and tram back to Paris.

The gardens of the Trianon were not interdite—that word crops up as frequently as verboten is said to in Germany. But the gardens were bleak and cheerless in the winter wind.

Met Charles Grasty, of the New York Times, later in town. Seems he had landed in the Palace hotel parlor on the strength of his military bearing or something, but that he had landed outside again soon after. He had a complaint to make about the War Conference to the effect that the better you knew the conferees the less you learned. It's often thus.

Inez Haynes Gilmore, who calls her husband Will Irwin, that being his name, is having an interesting time in Paris.

"There's so much to see and write about that it is almost bewildering," she averred.

Mrs. Herbert Adams Gibbon, present likewise, gave me the reassuring information that her husband is not the venerable greyheard that his admirable articles on international politics would lead one to suppose; contrarily, he is only 37. It will be possible to read his stuff for some years yet.

Both Irwin and Gibbon have been enlisted for war work. Irwin is lecturing to Americans in Y. M. C. A. huts at the front and Gibbon is lecturing in the south of France to the French people on the subject of America.

Enjoyed a talk with Lord Northcliffe this morning at an ungodly hour of his choosing. Found his apartments as busy as one of his newspaper shops.

General Pershing had just preceded me. Northcliffe declared his admiration of Pershing: "A fine leader of a fine army."

When the new Viscount becomes vigorous in his gestures he reveals a very palpable sign of his Americanization. He keeps his pants up with a belt!

Dined in a little place at the far end of the ue Montmarte, where the proprietor confers personal solicitation and handshakes on frequenters. Young Seldes, guide on this occasion was the proud recipient of a free handshake.

Paris, Dec. 3.—Getting out of Paris is harder than getting in; its a vastly more complicated process. Unless you are a "special case," it required eight days notice. I happen to be a special case, since the work of the United Press is listed among the things of Allied importance; help even so France's beautiful capital showed a distinct disinclination to sever our pleasant acquaintanceship with anything that could be called abruptness.

Found Howard Wheeler, editor of Everybody's Magazine, sitting dejectedly in a room at the Maison de la Presse.

He cheered up when he saw me, but the reason wasn't exactly flattering.

"Huh," he snorted, "wait till you've been through the mill!"

Entered M. Eduard Dollean. He presented Wheeler with three letters, marked No. 1, No. 2, and No. 3. He enumerated the three persons, in three separate places, in three different parts of town, to whom the letters were to be presented.

"Then I'm all through; I can go, can I?" demanded the Youngest of Big American Magazine Editors.

"Yes—" began M. Dollean.

The sun came out from behind the clouds on Wheeler's face. He grasped his host's hand in a hearty and absolutely farewell shake.

"—except, you must have five photographs," M. Dollean concluded.

"Mon Dieu!" gasped Wheeler—in English.

He dropped M. Dollean's hand and dashed out. I found him looking hopelessly for a taxi a few minutes later, for M. Dollen had asked me to return at 3.45 p. m., when, he said, there would be three letters waiting for me.

Took Wheeler ovr to the hotel and cheered him up with the remainder of my dollar's worth of jam.

At 3.45 found M. Dollean's room vacant for Reginald Wright Kauffman. Presently Dollean arrived bringing M. Besnard, one fo his colleagues, whom he wished to introduce to Kauffman. The latter appreciated the honor, since Besnard is author of about the most popular comedy now running in Paris, "Mon Ami Teddy." They had a long and earnest bi-lingual conversation about plays and things the Parisian being particularly interested in our young Mr. Sheldon, author of "Salvation Nell" etc.

An hour elapsed. Having hemmed once or twice without effect, I now hawed. M. Dollean apologized for the delay and went away for half an hour. We talked about plays some more. We kept on talking till Kauffman found he had to go. M. Besnard soon had to go also. Dollean and I stuck gamely at our conversation.

It's a long story if it's all told. I got my three letters at 6.10 p. m.—after all three of the addressees had gone home to dinner.

Said good-bye to the Colonel. Have come to the conclusion that I like Col. House. It's an easy conclusion to reach if you see much of him. He impresses you as being genuine; he is direct and simple, with a simplicity that seems real, not affected. So much has been written of his silence and secrecy that one might get the picture of a mole, burrowing in the dark ground. But that isn't Col. House. I believe he likes people and likes to be with people.

TUESDAY EVENING, FEBRUARY 5, 1918.

Who put the "pain" in campaign?

It does not matter how much money we gave to the Red Cross or how many Liberty Bonds we bought if we do not observe meatless and wheatless days we are doing nothing that means a real sacrifice for the boys who are already across the water.

Today marks two months of unbroken zero weather. A record that, so far as reliable information is concerned, we believe has never been broken. On the 5th day of December hunters came in from the mountains half frozen. Those who stayed at the camps over the following Sunday were snowed in and unable to hunt for several days. From that day until this we have had warm weather for only a few hours at a time and no relief is promised until the beginning of next week. Truly Satan and the Kaiser must be working hand in hand against Hoover and McAdoo.

It is a matter of considerable pride for us to know that this column of The Progress is quite generally read by all of our subscribing families and that many of the comments we hear on it come from the female members of the family and we oftimes keenly feel our inability to vary the subject matter daily so that there will be some article of interest to every member of the family. Particularly is this true in political editorials but even this phase of editorial writing has many followers among the women of our community as every day they are coming closer to the righ of franchise, and more than that, they are each day taking on greater activities with a view to a quick and successful terminaton of the war and this fact alone entitles them to a share in the formation of our national destiny through the medium of a wholesome interest in national politics.

Within ten days, unless transportation troubles prohibit, we shall witness the departure of twenty-one of "our finest" for Camp Lee, there to be trained into stalwart defenders and incidently made over into healthy, ruddy, manlike men after the very fashion of their Maker. We will have with us on that day the proud mother, she who sends her boy away with a tear and a smile and her eyes sparkling with pride. The younger brother will strut like a peacock because his brother is going to the army. Sister too is planning the box she is going to send him for his first Sunday dinner. Dad feels a little unnatural too, but right down in his heart he is proud of his big kid and what he is about to get into. Though there are partings that pull at the heart strings and happy little homes that are broken up for a time, every family displaying a service flag is justly proud to display it and that absent one exerts a powerful influence for real love and patriotism in that home. In such a war as this when we go to war with the highest possible motives and with the liberty of the world to fight for it is unfortunate that we must put up with the whimpering, simpering, "old women," male and female, who make entraining day have the appearance of a storm on the mountains rather than an April shower.

U. S. FORCES HAVE PERMANENT PLACE IN FRONT TRENCHES

American troops were in trenches in Lorraine three months ago, but this apparently was only a temporary assignment during training. At that time, according to an official German announcement the Americans were on the front at the Rhine-Marne Canal, which intersects the battle line near the German border, due east of Nancy. This announcement was made in the official report from Berlin of the first German raid on the American positions, in which three Americans were killed, five wounded and twelve captured.

Where the Americans Are

The eastern end of th battle line in France and Belgium runs through French and German Lorraine. French Lorraine, in which is the American sector, is included in the Departments of Meuse, the capital of which is Verdun; Meurthe-et-Moselle, whose capital is Nancy, and Vosges, with the capital at Epinal. The length of the front in French Lorraine is about 150 miles.

This section of the battle line extends into the Meuse from the Marne near St. Menehould and runs eastward to the north of Verdun, south of St. Mihiel and east to the German border. There it turns to the southeast and almost parallels the border to the vicinity of Leintry. Below Leintry it cuts across a section of French soil, past Badonviller and Cirenes and to the east of St. Die, and again crosses the German border at a point west of Colmar. The remainder of the line to the Swiss boundary is in Germany.

Since the battle of Verdun there has been no fighting of great importance along this front. For the most part it runs through high and broken country. Since the present battle line was established early in the war there has been comparatively little activity on the front to the east of the Verdun sector, the nature of the country making large operations impracticable.

FINE FOR [illegible]

MUSTEROLE

THE ONLOOKER FURTHER DESCRIBES THE MANUFACTURE OF SILK PLUSH

We had just taken that silk velvet off the loom yesterday when the fellow that allots the space told us we must quit, so we'll finish taking you about the trip tonight.

The newly woven velvet is then taken to a machine on which there is a metal bristled brush which, revolving at a great speed just close enough to the nap of the goods, cleans out all bits and broken threads; and this machine also cuts this web into two regulation widths.

The velvet is then given a close inspection for flaws and passes to another machine which could be well named the lawn mower. On this machine there is a knife much on the order of th blades on your lawn mower which operates at a tremendously high speed and just at the proper height to cut the nap uniformly so that the velvet gets that even smooth appearance. The velvet then passes into another machine which steams and presses the goods and gives it that lustre that milady demands when she says she will have a velvet gown.

The heat and ventilation of the mill are worthy of mention in view of the fact that every particle of air that passes into the mill has been washed by passing thorugh a fine spray of water which takes out every bit of dust and dirt and at the same time sends air, heated during the present season to just the proper temperature, and with humidity enough therein to keep the workers from getting drowsy. This is an ideal mill condition, as the workers are breathing air that is just as pure as when it drops down over the hill above the mill and there is none of the pallor and worn look on the faces of operatives that we have always associated with such manufacturing plants.

The workers, men, women and girls all seemed keen and alive to their work and seemed to be interested in getting out as much as they could. Upon inquiry we found that the work is mostly what is called piece work and the workers getting so much for their respective operations in the production of the velvet. We asked Mr. Geynet about the wages earned by the workers and he stated an instance where one of the workers had averaged over $15 a week during the year 1917 and that even learners were paid no less than $5 a week. Even at that he said that girls were hard to get and added that he could put fifty girls at work right now but the trouble was to find the girls.

The company has taken up the industrial and housing problem and has erected good substantial brick houses in what is known as Mill Addition and these houses are modern in every respect. They are built en block with two houses to the block. Families that have girls or middle aged women who can work in the plant are given these houses at a nominal rental which should fill the few remaining unfinished at the present time just as soon as they can be occupied.

We have presented this little trip just as we remembered it. Some of the operations in the mill we may have gotten twisted but we have written this local industry up so that our townspeople may know a little of what is within our gates.

OVER 80 YEARS BUT IS RUGGED

Mrs. Robbins Looks and Talks Like Woman 20 Years Younger

Mrs. Isaac Robbins, of River street Carbondale, Pa., woman over 80 years old, said recently:

"I suffered dreadfully with rheumatism. Last winter I had a very severe case of grip which simply aggravated my rheumatism. My hands and arms were swollen terribly and they were, oh! so sore. I never thought I would be any better.

"I read about the good that Tanlac had been doing for others and I got a bottle.

"Tanlac has removed every bit of pain and I do not have a bit of rheumatism now. My appetite is good and since the pain stopped I sleep like a child. The swelling has gone too. My arms are now like they should be and I feel as young as ever I did.

"I recommend Tanlac because it did me so much good that perhaps, it will help others like it did me. I am willing to talk with any poor sufferer that cares to know more about it before trying it. I think it wonderful."

The famous Tanlac is now sold here by Woodward & McPherson.

CRACK BAND WILL GIVE CONCERT FOR RED CROSS BENEFIT

Preliminary arrangements were completed yesterday afternoon for the coming band concert to be given by Crescent Band of Curwensville in the High School Auditorium.

This musical organization which is a part of the welfare work of the Crescent Refractories Company has kindly proferred their services to the Clearfield Chapter American Red Cross. This is another instance of the deep interest that the officials of the erstwhile Bickford Fire Brick Co. have taken in the furtherance of the Red Cross work.

The date set for the concert is Tuesday, February 12, and although this is the date upon which all places of amusement are closed exceptions have been made for this occasion in view of the fact that it is for war work.

It will be remembered that the Crescent Band is the band that made such a decided hit at the county fair last fall and we are informed by Mr. J. Clark Boyer, the manager of the band, that the men are rehearsing three nights a week in preparation for the coming concert.

Cupid Black, Chuck Barrett and Barney Gerrish, three of the Newport Naval reserve football stars, have been commissioned ensigns and are now on active duty.

DECATUR COUPLE MARRIED 50 YEARS

Mr. and Mrs. Robert Wilson completed fifty years of married life on Jan. 31st, 1918. The event was celebrated by a gathering of their descendants and friends at their home in Decatur township. The couple were married in Galston, Scotland, and came to this country in 1887 and have lived in their present home for 28 years. They were blessed with a family of eight children, five of whom are surviving. They have forty-two grandchildren and six great-grandchildren, all of whom were present at the celebration with the exception of one grandson, who is in training with the forces at Camp Grant.

The aged couple were the recipient of many valuable gifts ,including a purse of gold. Rev. S. T. Lewis, of Osceola Mills, presided over the gathering and conducted a short religious service after which the company partook of a splendid supper provided for the occasion.

Mr. Wilson has followed coal mining nearly all his life and considering his years, is in a remarkable good state of health and is able to read the smallest print without the aid of glasses. Mrs. Wilson is also pretty active for her years. Their respective ages are 72 and 68.

For Burning Eczema

Greasy salves and ointments should not be applied if good clear skin is wanted. From any druggist for 35c, or $1.00 for extra large size, get a bottle of zemo. When applied as directed it effectively removes eczema, quickly stops itching, and heals skin troubles, also sores, burns, wounds and chafing. It penetrates, cleanses and soothes. Zemo is a clean, dependable and inexpensive, penetrating, antiseptic liquid. Try it, as we believe nothing you have ever used is as effective and satisfying.

MEAT CAUSE OF KIDNEY TROUBLE

Take Salts to flush Kidneys if Back hurts or Bladder bothers

If you must have your meat every day, eat it, but flush your kidneys with salts occasionally says a noted authority who tells us that meat forms uric acid which almost paralyzes the kidneys in their efforts to expel it from the blood. They become sluggish and weaken, then you suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sours, tongue is coated and when the weather is bad you have rheumatic twinges. The urine gets cloudy full of sediment the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To neutralize these irritating acids, to cleanse the kidneys and flush off the body's urinous waste get four ounces of Jad Salts from any pharmacy here; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia and has been used for generations to flush and stimulate sluggish kidneys, also to neutralize the acids in urine so it no longer irritates, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure, and makes a delightful effervescent lithia-water drink.

DRINK HOT TEA FOR A BAD COLD

Get a small package of Hamburg Breast Tea at any pharmacy. Take a tablespoonful of this hamburg tea, put a Scup of boiling water upon it, pour through a sieve and drink a teacupful at any time. It is the most effective way to break a cold and cure grippe, as it opens the pores, relieving congestion. Also loosens the bowels, thus breaking a cold at once.

It is inexpensive and entirely vegetable, therefore harmless.

DREAM OF THE U. S.

In dreams I hear the rumble of the fall of Germany
And the shouting of the Sammies o'er their wondrous victory.
I hear the whir of zeppelins as in vain they try to flee;
Our flag is marching on.

[redacted]

They have captured all the trenches and the dug-outs of the Hun;
They have seized their ammunition, all their foodstuffs and their guns.
They have lined up as their prisoners many thousand German sons;
Our boys are marching on.

No more ships will be torpedoed as they sail across the sea.
For the submarines are conquered and from mines the coast is free;
Access to the ocean is a part of liberty;
Our day is marching on.

I see the banners flying and hear the rolling of the drum,
I can hear the glad hurrah! rah! as up the street our brave boys come;
We are done with German tyrants, once for all the world is free,
Our God is reigning on.

MANY PUPILS GAVE SPEECHES OF THEIR OWN PRODUCTION

Following is a worthy contribution **written** at the Carnwath school on the **occasion** of Patriotic Week observance **there.** We would like very much to **give more** of these but space prohibits **for using** many of them.

The United States was forced into **the European** war by repeated insults **of the German** government on the **high seas,** by acts of aggression, and **by Germany** endeavoring to spread **sedition** and corruption among our **people.**

Austria blamed Servia for the as**sassination** of a royal prince and this **pretext** was used by Germany to in**vade and outrage** Belgium and to sink **our mercy** bound ships to these en**slaved and impoverished** peoples.

The Lusitania, with her innocent **cargo** of men, women and children **was sent** to the bottom of the sea **where their only** requiem was sung **by the overwhelming** floods and the **fiendish** dirges of the Kaiser's cohorts. **The Sussex** suffered a same fate and **ship flying** the Stars and Stripes were **sent to the bottom** by scientific bru**tality of the German military** ma**chine.**

What was left for us to do when **Germany killed** our ship crews and **passengers,** and notified us (Feb. 1, **1917) that she** would sink our ships **when they** came within waters that **she mapped off** for us to stay out of? **One thing only** was left for us and **that was** to fight. Yes, fight for our **rights** and the rights of a down-trod**den people.**

"So near to grandeur is our dust,
So near to God is man
When duty whispers, 'lo, thus must'
The youth replies 'I CAN'."

The Carnwath schools mean to stand by the flag.

"Your flag and my flag
And how it flies today
In your land and in my land
And half a world away!
Rose-red and blood-red
The Stripes forever gleam.
Snow-white and soul-whitee
The good forefathers' dream.
Sky-blue and true-blue, with stars to gleam aright—
The gloried guidon of the day, a shelter through the night.

"Your flag and my flag!
And, oh how much it holds—
Your land and my land—
Secure within its folds!
Your heart and my heart
Beat quicker at the sight;
Sun-kissed and wind-tossed—
Red and blue and white;
The one flag, the GREAT flag—the flag for me and you—
Glorified all else beside—THE RED AND WHITE AND BLUE."

DRINK WATER TO AVOID SICKNESS SAYS AUTHORITY

Glass of hot water before breakfast daily keeps the doctor away.

Sanitary science has of late made rapid strides with results that are of untold blessings to humanity. The latest appreciation of the untiring research is the recommendation that it is as necessary to attend to internal ablutions of the drainage system of the human body as it is to the drains of the house.

Those of us who are accustomed to feel dull and heavy when we arise, splitting headache, sufferers from a cold, foul tongue nasty breath, sour stomach, sour, instead feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the lateral poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver and bowels the previous days indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast that phosphated hot water is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions oif people who are bothered with constipation, bilious spells, stomach trouble, rheumatic stiffness; others who have sallow skins blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store. This will cost very little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.

COLDS Easily Broken

It's not such a hard matter to break up a cold with this cold remedy of ours and the way it digs into a cough is a caution.

Syrup Of Tar
With Mentholated Cod Livers

The tar loosens the cold; the cod liver extract builds up your system; the menthol soothes the inflamed membranes so it's no wonder that we're selling it the way we are.

COURT NOTES

Sheriff Anthony Gorman held his first real estate sale ysterday in the Arbitration Room and sold the hotel property of Ross Sheffer at Winburne to John Fryberger, Trustee, for the sum of $5,000.

Judge Bell made an order or decree yesterday directing that the estate of Patrick J. and Gertrude Maylon, late of Osceola, be partitioned and divided among the legal heirs.

L. E. Bayer, Esq., discontinued the suit of Miles & Co., of DuBois, against the New York Central Railroad Company.

Judge Bell handed down an opinion in which he refused a new trial in the case of J. C. Henry vs. D. W. Anderson. This suit was tried before Judge Bell in May last and the jury rendred a verdict in favor of Mr. Henry in the sum of $800, being amount due on a timber making contract. Following the verdict Mr. Anderson moved for a new trial, but the verdict is allowed to stand. W. I. Swoope, Esq., represented the plaintiff in the case.

Mrs. Jessie Bowman, of Clearfield, has been granted a divorce from her husband, H. L. Bowman.

Mrs. Cecilia Foltinski made application in Prothonotary Moore's office yesterday for a divorce from her husband, Paul Foltinski. The petition states the fact that the marriage occurred November 24, 1913, and that th husband deserted November 25, 1913, and has not been seen since.

FEW DROPS AND CORN LIFTS OUT

Says there is no excuse for cutting corns and inviting lockjaw

Sore corns, hard corns, soft corns or any kind of a corn can harmlessly be lifted right out with the fingers if you will apply directly upon the corn a few drops of freezone, says a Cincinnati authority.

It is claimed that at small cost one can get a quarter of an ounce of freezone at any drug store, which is sufficient to rid one's feet of every corn or callus without pain or soreness or the danger of infection.

This simple drug, while sticky, dries the moment it is applied and does not inflame or even irritate the surrounding tissue.

This announcement will interest many women here, for it is said that the present high-heel footwear is putting corns on practically every woman's feet.

LETTERS FROM OUR SOLDIER BOYS

Camp Forrest, Ga.,
Feb. 1st, 1918.

Dear Editor:

I have been placed on the officers' reserve list in class C and while I am waiting on my commission for active service in France I have transferred to army Y. M. C. A. work. I am physcal director of the Y. M. C. A. of the 51st Inf., a full regiment of 1800 men. While I was in the second officers' reserve training camp we dug eight miles of trench and had the experience of fighting and sleeping in the several days and nights. It rained for two days and nights and we waded through mud up to our knees. It was too much for some of the men.

I am glad to know that several of the hundreds of young men I taught military drill in Clearfield, Philipsburg and Tyrone are now officers and non-commissioned officers in the U. S. army.

I am kept busy with athletics. Have fourteen basket ball teams in a regimental league and we have competitive indoor and outoor athletic meets. Our 14 building are crowded all the time with soldiers and they keep me busy entertaining them in one of the buildings every night. I give illustrated lectures on my travels around the world and Alaska and the Philippines, giving exhibitions of Indian clubs and electric club swinging and sleak wire walking.

These Southern ladies from Chattanooga, Tenn., motor out to the fort and give good entertainments and every Thursday they come out and mend the soldiers' clothes and they live up to the much talked of Southern hospitality by taking the soldiers into their homes for lodging and meals.

There are over 40,000 U. S. army regulars at this camp.

Tell the Pennsylvania ladies if they have any more sweaters left after they have supplied the National Army men with them there are thousands of regular army soldiers in this camp who would appreciate a sweater.

Yours sincerely,
CHARLES E. GRAFFIUS,
Y. M. C. A., Bldg. 25
Chattanooga, Tenn.

HEAD STUFFED FROM CATARRH OR A COLD

Says Cream Applied in Nostrils Opens Air Passages Right Up.

Instant relief—no waiting. Your clogged nostrils open right up; the air passages of your head clear and you can breathe free-ly. No more hawking, snuffling blowing, headache, dryness. No struggling for breath at night; your cold or catarrh disappears.

Get a small bottle of Elys Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic, healing cream in your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swollen mucous membrane and relief comes instantly.

Its just fine. Don't stay stuffed-up with a cold or nasty catarrh.

NOTICE

There will be a meeting of the Ladies Auxiliary of the Y. M. C. A. Tuesday afternoon at 2.30. Please recurn your books at this meetng. All are urged to be presnt. F2-3.

Adaptable and Popular Furs

The aptitude for wearing clothes in the right way has more to do with successful dressing than the style of the clothes themselves. American women have earned a reputation for a fine sense of style and fitness—that is—a "sense of clothes." Perhaps this is the reason they have taken so kindly to the capes and flat scarfs of fur that have proved, by a long way, the most popular furs of the season. These flat neck pieces are adaptable and easy to adjust.

Furs that may be worn either to muffle up the throat and shoulders, over warm coats out of doors, or to be thrown about the shoulders indoors, could not fail to please. Whether any inquisitive draft of air finds its way to thinly clad shoulders or not, the fur piece is a most becoming guard against it. At concerts and club meetings, dances and restaurant dinners, coats are discarded but the fur neck piece sees its duty and does it nobly. It stands by the bodice or blouse of crepe, makes the uncovered throat plausible and tones up whatever costume it happens to be worn with.

At the center of the group of fur pieces shown in the picture, the shape most popular in capes appears. This style is made up in all the soft, flat furs as mole, ermine, seal, kolinsky, squirrel and mink. In the picture it is developed in chinchilla. The cape is lined with soft gray messaline satin and ties are made of the satin finished with a ball and band of fur at the ends. It has a straight band of fur, without the white stripe that appears in the cape, for a collar. Very often two kinds of fur appear in these capes.

The cape at the right is of Hudson seal with shawl collar of ermine without the black points—or tail tip—that are shown in the muff. This cape is full enough to ripple a little and is longer at the front and back than over the arms. It is lined with soft dark brown satin.

All kinds of fur are used for the flat scarfs that are wide enough to form capes for the shoulders. They are usually about a yard and a half long and are sometimes discovered to have pockets inconspicuously placed in each end. Just what they are there for is to be solved by each woman for herself.

Step Lively! Corns Quit With "Gets-It"

The Great Corn-Loosener of the Age. Never Fails. Painless.

Watch my step? What's the use! I go along "right side up without care" even with corns, because I use "Gets-It," the painless, off-like-a-banana-peel corn remover. I tried other ways galore, until I was blue in the face and red in the toes. No more for me. Use "Gets-It." It never fails. Touch any corn or callus with two drops of "Gets-It" and "Gets-It" does the rest. It's a relief to be able to stop cutting corns making them bleed wrapping them up like packages and using sticky tape and salves. It removes any corn clear and clean leaving the toe as smooth as your palm. You can wear those new shoes without pain dance and be frisky on your feet. It's great to use "Gets-It." "Gets-It" is sold at all druggists (you need pay no more than 25 cents a bottle), or sent on receipt of price by E. Lawrence & Co. Chicago, Ill.

SPORT CHATTER

Jim Cocey, the New York heavyweight has turned down an offer to meet Tom Cowler in Boston.

During his five years with the St. Louis Brown Derrill Pratt, the Yankee's new second baseman, missed but one game. Umpire Dineen kicked Derril's record by chasing him out of a game in 1914.

Mike Donovan, at 70, is still able to hit and sidestep with the best of them. The Grand Old Man of the ring, who for many years has been boxing instructor of the New York A. C., is now teaching our soldiers how to handle the mitts.

The Red Sox have lost another pastimer. Jimmy Cooney, their young infielder, has joined the colors and is now at Camp Devens.

Kills Pain In Half The Time

A Big 25 Cent Box of Marvelous Mustarine What Every Home Should Have

Lumbago, Backache, Toothache, Neuralgia and All Aches and Pains Are Banished in Half the Time it Takes Other Remedies—One Application Does the Work

Grandmother's old fashioned mustard plaster did the work alright, but it blistered the skin and was a mighty unclean remedy.

Mustarine is the original mustard prescription that has the strength of a dozen mustard plaster but a real of hygeine days.

It's ten times better, cleaner and will not blister; it is made of true, honest yellow mustard combined with other well known destroyers of pain and a 25c box does the work of fifty mustard plasters.

Why suffer for days using plasters or continuously rubbing on liniment when one application of Mustarine will take out soreness in chest or any part of the body and will limber up stiff neck or rusty joints. It banishes backache, toothache headache in ten minutes—many times in five.

If you want to get rid of sore throat, neuralgia neuritis, pleurisy, inflammation in the feet or rheumatic agony and swollen joints—rub on Mustarine right away to the quickest pain eater in the world—and be cheerful. Get true Mustarine in the yellow box at any drug store.
